What inspired you to choose this path/career?

"I wanted a degree that led directly to a career. The social work course enables me to practice as a fully qualified social worker as soon as I've completed my course. Studying health and social care at sixth form sparked my interest in a career in that sector where there are so many different career paths that allow me to keep my options open. Basically social work just seemed to be the best fit for me and I'm loving it!"

What is your best revision/study tip?

"Invest in a highlighter. As trivial as it sounds the difference it made to my memory in my second year of college is huge! Re-writing notes can become extremely repetitive but simply highlighting key words can make things so much easier to remember"

What is the one piece of advice you would give to current Venture Students?

"Don't take school for granted! You may think you can't wait to leave but I don't know anyone who doesn't now wish they could go back to school. Education opens so many doors, always keep that in mind."
